

## ABOUT *reallyTALK*

### **120% performance with passion!**

We combine communication with motivation and sense. Without sense nobody works really effective and delivers the performance you want! That's why we search with you for the superior SENSE in your activity (EVERY job has this!), combine this with communication and motivation and have a REAL increase in efficiency on all levels!

Away from the "WorkLifeBalance" to an integration of work into life. The goal is the employee who gives 120% because he does not really separate work and life anymore and experiences highest (relaxed) satisfaction!

### **Requirements**

Improve team communication: reallyTALK has a UNIQUE method of team communication! Improve the teamwork ability of each individual employee: Bullying - prevention was yesterday, getting EVERYONE on board is today! Real and effective tools for every single employee, so that they are permanently able to solve conflicts and problems independently and without outside support.

Years of experience in staff training: media, information technology, adult education and in freelance seminar work! This has resulted in experience and, above all, a very unique methodology, which we call the reallyTALK: Perception-oriented, effective, SENSEful and satisfying at all levels of the company!
